Where:
Hotel Crowne Plaza
Brussels, Belgium

When:
22-24 October 2015

1 International school projects, how do we measure the impact on our students' attitudes?

This workshop will show some hands on practical tools to measure the impact of our teaching on students' attitudes with a focus on global citizenship themes. These tools have been developed through an EU funded project, 'Quantity or Quality: How do we know it's working?' and a link to the online toolkit will be circulated to all conference participants when it goes live in November.
